Don't miss this rare event!

Come experience a unique opportunity to participate with Master Sound Healer, David Gibson, of the Globe Institute, San Francisco, California.

He will be discussing what he has learned in the past 20 years, and his recent work using sound healing with Parkinson's patients. Further, he will be available to answer your questions and discuss how you can discover your personal sound frequencies.

As usual, we will be doing very deep meditations using the Crystal Tones singing bowls.

We will also work on healing your root chakra and allowing you to feel grounded and present.

- **Learn how to use sound to heal chronic illness**
- **Participate in receiving and giving sound as a healing tool**
- **Use sound to deepen your meditative experience**
- **Discover hidden depths to your being**

*As always, a light snack will be served. Arrive at 12:45 pm, as we will start **promptly** at 1 pm.*

\$125. tuition must be paid by February 28 for all students.
